

GASKET KIT FOR VALVE REF. FARRIS 4KG27AES-B

Description:

Valve accessories are items for valve installation and maintenance.

Valves are mechanisms that are used to regulate the flow of fluids. They can have multiple functions, such as directing the flow, limiting the pressure, preventing the passage of fluids or varying the speed of the flow.

Hydraulics consists of products that generate a movement and a force under two conditions: that they are fluid and that they are subject to a pressure.

Manufacturer:	FARRIS
Manufacturer Ref.:	4KG27AES-B
Rodavigo Ref.:	7014KG27AESB
