

NetShelter WX 12U Wall Mount Enclosure (AR112SH6)

Ideal for retail, healthcare, and educational facilities, the APC By SchneiderElectric NetShelter WX 12U Wall Mount Enclosure offers businesses and education centers an efficient solution for deploying server and networking equipment for edge computing applications.

Designed to safely house your server as well as network solutions such as network switches and patch panels, this 12U server rack or network rack cabinet extends 23.62inches (600mm) off the wall and has a width of 23.62 inches (600mm), making it compatible with all 19-inch rack mount equipment. It is constructed with a single-hinge door that can be reversed to suit the installation space.

The door features a standard swing handle, and an optional APC NetBotz upgrade is available (additional purchase required) to provide remote access, video surveillance, and environmental management with optional smoke detector and fluid detection.

Grow Your Edge Network

This wall-mount server rack or network rack cabinet offers a complete storage solution for your edge computing equipment. The enclosure allows for flexible configuration, so you can pick the APC UPS (uninterruptible power supply), rack APC PDU (power distribution unit), and security solutions that best suit your needs.

Wall-Mountable Design

Featuring a wall-mountable design for optimal efficiency in areas with limited floor space, this 12U server rack or network rack cabinet is 23.62-inch (600mm) deep which is ideal for housing deep equipment. There is an 15.75in (400mm) deep option for shallower devices. Cage nuts and screws are included.

Reversible Single-Hinge Door with Security Upgrade Option

Great for IT deployments for retail, medical, and educational facilities, this server rack or network rack cabinet comes with a single-hinge door that can be reversed to suit your installation needs. The door features a standard swing handle, and an optional combination style or enhanced security APC NetBotz upgrade is available (additional purchase required) to provide remote access, video surveillance, and environmental management with optional smoke detector and fluid detection.

Ventilated Enclosure with Wallbox Cable and Accessory Integration

The space is ideal for patch panels or an optional 120V fan tray (AR8213) that can be top or bottom mounted. The bottom and roof of the server rack or network rack cabinet feature easy-to-remove knockouts that provide an additional 2U of mounting space can be used for cable exits or to install a 1U accessory such as a fan or patch panel. An integrated fan ventilates and cools the installed IT equipment.

Customize Your Configuration

Configure a complete solution that meets your application requirements, including APC UPS (uninterruptible power supply), rack APC PDU (power distribution unit), APC NetBotz products, and EcoStruxure software.

Ships Fully Assembled

Wall-mount server rack or network rack cabinet ships fully assembled, reducing the time required to install equipment. Option to have the cabinet unassembled for storage or transit in tight spaces or preferred assembly onsite.

About APC by Schneider Electric

A History of Innovation in Physical IT Infrastructure

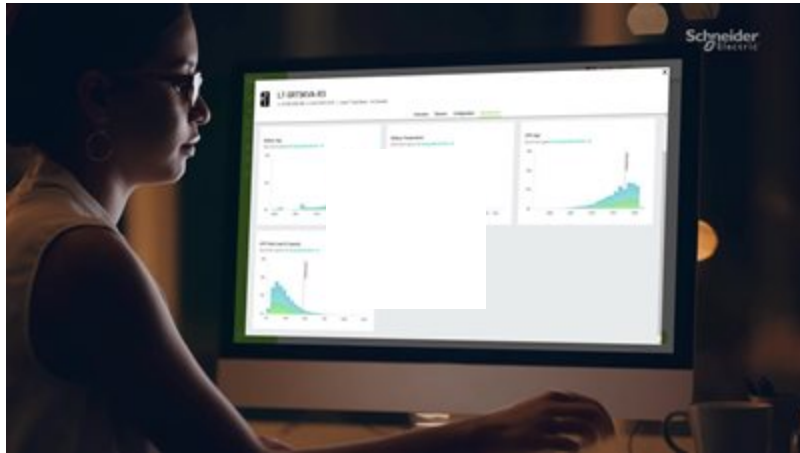

Over nearly four decades of innovation, APC has become an industry standard for reliable power and physical IT infrastructure.

APC UPS Power and Data Security That Gets the Job Done

Companies around the world and within every industry rely on products from APC to keep their data centers up and running. Our APC UPS (uninterruptible-power-supply), data-security, and surge-protector solutions work hard for you when maximum availability and guaranteed uptime are non-negotiable.

The APC Difference

In today's connected world, your business demands integrated solutions for optimal IP performance. Our proven industry leadership, combined with a large community of IT partners, has resulted in collaborative technology and expert services that you can rely on to meet your business's IT needs.

About APC

APC, a flagship brand of Schneider Electric, provides clean battery backup power, surge protection, and IT physical infrastructure inside and outside the traditional IT environment. Through our APC brand products and solutions, we offer certainty in a connected world. Certainty that our reliable, integrated physical infrastructure solutions are based on the fundamental premise that your data and information should — and always will be — accessible.
