

DESCRIPTION :

This DuPont™ Nomex® knitted balaclava / hood delivers great heat protection for the head, neck, and shoulders. Not only does it help maintain body temperature with its breathable characteristics, but also provides flexible comfort when long wear times are important.

This balaclava / hood enhances upper body protection when working in heated situations such as welding and molten work. It features a double-layered top and a single-layered bib while the opening face is large to provide maximum viewing benefits.

SIZE: Free Size

COLOR: Beige, Black

INTERNATIONAL STANDARDS:

EN13911

FEATURES:

- Made with DuPont Nomex knitted fibres for excellent durability
- Breathable and flexible to maintain comfort
- Features as double-layered head protection
- Flame resistant with arc protection
- Large face opening for improved visibility
- Designed to deliver quality protection for welding and molten jobs
